Section 7.1 – Ways of Earning Part 1

Solve for the required information.

<p>If I make \$23.70/<i>hr</i> and I work 6 <i>hours</i> Monday, Tuesday, and Wednesday, 4 <i>hours</i> on Thursday, and 8 <i>hours</i> on Friday, how much do I make in two weeks?</p>	<p>My job pays me time and a half for any hours over eight worked in a day. I make \$32.50/<i>hr</i> and on Monday and Tuesday I worked 12 <i>hour</i> days, Wednesday I worked 5 <i>hours</i>, and Thursday and Friday I worked 10 <i>hours</i>. How much did I earn that week?</p>
<p>I work at a restaurant and make an hourly wage of \$16.10/<i>hr</i>. If I work a six-hour shift and make \$240 in tips, what is my adjusted hourly wage if we include the tips in the breakdown?</p>
